

Reducing/compressing photos

Step by Step guide to using free JPEGmini software

Reducing the size of photos is a simple process, which is easy to follow with our guide below.

Step One

Log onto www.jpegmini.com and create an account with your email address and provide your chosen password. You will soon receive a confirmation email from JPEGmini and you will be able to start reducing the size of your photos.

If you wish you can upgrade to JPEGmini with unlimited 28MP photos after a free trial period or JPEFmini Pro with unlimited 50MP, up to 8x faster and lightroom plug-in for a fee.

Step Two

Try it now.

Click on the “Upload Your Photos” icon at the top left of the website page

Click on Select Photos icon

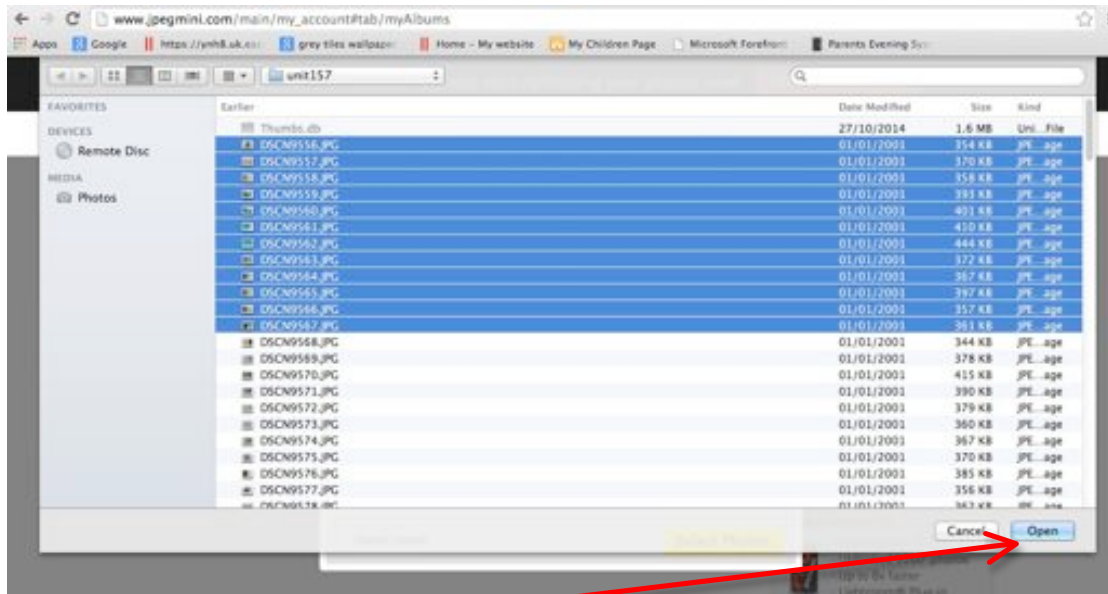

You can select multiple photos as the tip box states by holding down the “ctrl” key whilst clicking on the photos you wish to resize.

Click on “Open” for your selected photos to start to upload to be resized. You will see “Uploading photos to a new album” with a green bar showing you the progress of the uploading/resizing.

You can name the photo album at this stage by adding your chosen name within the “Album name” box

Step Three

You will see a screen telling you “Your photo album has finishing uploading and is now scheduled for processing” later followed by “Your album is ready!”

You will receive an email with a link to your resized album of photos.

You will also see the website page showing your Album with an icon to allow you to download the resized photos to a file on your computer.

Step Four

Your photos have been reduced in size.

You can now upload your compressed photos to our CRM system for use in your survey.

You are given a choice on JPEGmini to either “Keep Album” or “Delete Album”
